SENATOR VANCE'S RESOLUTION

MAKES IT CLEAR.

No thoughtful or well-read man fails  
to appreciate the burdens which are  
imposed upon the farmers and all other  
consumers by reason of the tariff tax.There are other burdens, but the tax by  
tariff is the first and the greatest, and  
the agitation for the reduction of this  
tax is the most patriotic work any set of  
men ever did. In an hundred ways the  
CHRONICLE has shown that this tax  
makes most things cost 47 per cent.  
more than they would otherwise, and  
that it is a constant drain upon the re-

sources of our people.

Senator VANCE has offered an amend-

ment to the tariff bill which the Repub-

licans will defeat. It is on Mr. BLAINE's  
line of reciprocity, but as it is aimed to  
give the farmer some relief from tariff  
taxation it will have no chance of adop-

tion by the Republican Senate. The fol-

lowing is the amendment:

WHEREAS, From an early period in  
history duties upon foreign imports have  
been levied with the avowed purpose of  
promoting the interest of domestic man-ufactures, and drawbacks or rebates  
have been given of the duties on raw  
material used in the manufacture of all  
articles exported for the same purpose;

and

WHEREAS, For the encouragement of  
the production of spirits and tobacco all  
internal taxes are refunded upon those  
articles which are exported abroad; andWHEREAS, Bounties have long been  
granted to our fishermen by a drawback  
of duties upon the salt used in their  
business, and bounties are proposed to  
aid in the building and sailing of ships;

and

WHEREAS, Agriculture, being the great-  
est and most important of all our indus-tries, has not been and in the nature of  
things cannot be aided in the same  
manner, the duties therefore levied for  
that purpose having for the most part  
proved wholly unavailing; and

WHEREAS, It is desirable to do impar-

tial justice to all of our industries, and  
to give no one an advantage over the  
others, and inasmuch as there is no  
other way by which agriculture can be  
compensated for its contributions to the  
support of manufactures: ThereforeB. It enacted, &c., that in all cases  
where it can be shown by proof satisfac-tory to the Secretary of the Treasury  
that any goods, wares or merchandise  
imported into this country have been  
purchased abroad by any citizen of the  
United States by exchange of farm pro-ducts grown in the United States for  
such goods, or where such goods have  
been purchased with the proceeds or  
avails of such farm products in foreign  
countries, such goods, wares or merchan-dise shall be imported at the following  
rates of duty, to wit:—One-half the pre-sented duty on all manufactures of iron  
and steel; forty per cent of the present  
duty on all woolen and cotton goods or  
articles of which wool or cotton may be  
component material of chief value;half the present duty on earthen-  
ware, china and glassware; thirty per  
cent of the present rate of duty on all  
material used for fertilizers or in the  
manufacture thereof, and twenty-five  
per cent of the present rate of duty on  
jute bagging and farmers' binding twine.This resolution is a clearer showing that  
the farmer is taxed by the tariff than any  
long argument could be. As showing the  
burdens imposed by the Tariff, the Pro-

There is no doubt but that many manu-  
facturers in this country sell goods to  
foreign dealers at a low price and make  
no profit. The tariff is the cause of it all. We wish to see all manu-  
facturers prosper, but the farmers  
should prosper, too. When the duty  
was taken off quinine it was said that  
the business would be ruined; that  
the factories would be compelled to stop.  
That was all stuff. More than three  
times as many more are engaged in the  
quinine business as were then. They  
are making money. The men employed  
get as good wages. Yet the price is not  
one-fourth as much as was before the  
duty was taken off. The same can be  
said of matches.

"Line upon line" must be the motto  
of every true and honest Tariff  
Reformer. Protected interests tell  
people that the Tariff is a small  
thing, and seek to deceive them by such  
misrepresentation. With a careful study  
of the Tariff question, and an under-  
standing of how it operates to impose a  
tax, no intelligent farmer will be misled  
by the statement, but will cry out for a  
radical reduction of the present burden-  
some tariff tax.

Go on, SENATOR VANCE; the people  
are with you in your fight to secure a  
reduction of the heaviest of all taxes.

## A NEW COTTON BAGGING.

The fight against the jute bagging  
trust served more than one good pur-  
pose. It showed that, if organized and  
determined, the people could defeat a  
trust, and it also served to bring out in-  
ventive genius and skill. The result is  
that the cotton crop can be packed in  
half a dozen kinds of coverings. New  
manufacturers have sprung up, and they  
are kept busy trying to get ready for the  
early rush of cotton to the market.

Several months ago the CHRONICLE  
made some reference to a discovery by  
W. M. JACKSON, Esq., a well known  
lawyer, of Augusta, who had perfected a  
plan by which cotton bagging can be  
made from the stalk of the cotton plant.  
A company has been organized with a  
cash capital of \$500,000. It will be the  
middle of November before work can be  
done, and it will be impossible to supply  
any bagging for this season's crop.

This discovery marks the inception of  
a momentous enterprise, one that looks  
to the utilization of what was previously  
regarded as waste. It is an economic  
triumph which represents a saving  
of not only the price of  
a year's consumption of bagging  
but also the retention of much of the  
money at home which went to  
Indian jute growers. It also creates a  
market for cotton stalks which have  
heretofore been a troublesome incum-  
brance of the gleaned fields. They had  
to be beaten down and burned or plowed  
in on the succeeding crop. They will  
now be worth \$2.00 per ton and in-  
stead of an incumbrance, they will con-  
stitute a source of revenue for our  
farmers.

Again, we see that the cotton plant is  
the greatest plant in the world, and all  
of it is valuable. The Charleston News  
and Courier grows eloquent about the  
cotton plant and says:

"We clothe the world with its fleshy  
fibers. Its seeds furnish the best grades  
of 'lard' for the toiling millions of two  
or three continents, the finest quality of  
olive oil for the tables of the rich, and  
the material for making soap where-with  
to cleanse them all. They also supply  
food for the cattle on a thousand or so  
hills, fertilizer for the agriculturist, and  
their very bolls set forth a pasturage  
beside which clover becomes as so much  
killed straw. It is a wonder-  
ful plant. We catch rabbits and shoot  
quails in the fields where it grows. The  
creeping things which infest it, and at-  
tack it occasionally, fatten turkeys bet-  
ter than corn, and between its rustling  
rows we dig bait wherewith to catch fish  
or reap, sometimes, luscious grasses that  
make the best of hay. And now we are  
to see its bark utilized for all the vast  
and 'various' uses to which the jute pro-  
duct is put," while the woody portion of  
the stalk is to be "employed as fuel" to  
drive the machinery of loom and gin  
and oil mill. Then its ashes, no doubt,  
will be employed to make lye for the  
soap factory, or to prepare the tooth-  
some "big hominy" of our forefathers, and  
the ultimate possibilities of the gener-  
ous plant will have been exhausted.

What a plant it is, indeed! Talk about  
its being a dethroned king—why, it is  
only coming into its kingdom, and it ap-  
pears to comprise the whole royal family  
in its single person.

IT DOES BEGIN to look now a little like  
the agitation of the Federal Election  
law was a scheme to again arouse sec-  
tional feeling so that Republicans can  
carry the North in November. The  
foolish boycott proposition was exactly  
what the sectionalists wanted, and they  
will use it and all other such expressions  
on the stump in the Congressional cam-  
paign.

A REPUBLICAN convention in Texas  
refused to endorse the President or the  
Force bill, but went wild over the men-  
tion of BLAINE. Say what you will about  
about him, the magnetic man from  
Maine enjoys the affection of the masses  
of the Republicans as no other man.

The Federal election bill is dead. It  
will come up again for caucuses delibera-  
tion, of course, but even its most rabid  
champions now see that it cannot be  
passed, and no serious attempt will be  
made to bring it up.—St. Louis Globe-  
Democrat.

The tightness in the money market is  
said by the New York Times to be caused  
by the large amount of gold sent out-  
ward for large merchandise importations  
in order to escape the increased duties  
proposed in the McKinley bill.

T. C. UNTHANK (col.) was the secre-  
tary of the negro convention that nomi-  
nated a negro for Congress in the Fifth  
district. From Brown's standpoint,  
the secretary is correctly named.

LAST WEEK IN AUGUST, 1890

This month is usually not  
a very busy one in carpets,  
but this August is an excep-  
tion.

If we do not sell a single  
yard of carpet this week,  
we can still say Saturday  
night, when we are through  
work, that we have done  
the biggest business in this  
line of stuff that has ever  
been done in Raleigh during  
August.

Some may ask, what is  
the cause?

Early in the month we be-  
gan showing a line of car-  
pets as large as is ordina-  
rily brought out for regular  
fall trade. The complete-  
ness of the stock, together  
with lower prices than the  
same grades had formerly  
sold for, caused many to  
buy early.

Last week was added new  
attractions. This week we  
want to close out some pri-  
ters that are not brand  
new, and to do so, we will  
make it to your interest to  
buy now.

## NOTHING SUCCEEDS

LIKE SUCCESS.

The reason RADAM'S  
MICROBE KILLER is the  
most wonderful medi-  
cine, is because it has  
never failed in any in-  
stance, no matter what  
the disease, from LEP-  
TOSPIRY to the simplest  
disease known to the  
human system.

The scientific men of  
today admit and prove  
that every disease is  
caused by MICROBES.

—AND—  
CAUSED BY MICROBES.

## RADAM'S MICROBE KILLER

Extirminates the Microbes and drives them  
out of the system, and when that is done you  
cannot have an ache or pain. No matter what  
the disease, whether a simple case of Malaria  
Fever or a combination of diseases, we cure  
them all at the same time, as we treat all dis-  
eases constitutionally.

Asthma, Consumption, Catarrh, Bron-

## GOOD REASONS

For Patronizing the Moseley House.

1.—I am pleasantly located, near all that is  
of interest and on the main street, where all  
the elite of the city pass, and opposite the  
large dry goods house of W. H. & R. S.  
Tucker & Co.

2.—I find everything neat and clean at the  
Moseley House, and feel as if at home, for  
they make me so.

3.—I find the Dining Hall for Ladies and  
Gentlemen well cared for and as pleasant as  
any seaside resort—no lies, and the Evening  
Fly Fans keep one cool and pleasant, while  
one can enjoy one of the good meals you can  
ways get at the Moseley House for 50 cents.

4.—An enterprise like the travelling public  
should appreciate and patronize is the Mose-  
ley House.

## PANACEA - WATER.

IT KEEPS FOR TEN YEARS!

IT IS NOT NECESSARY TO VISIT  
the Springs in order to get cured. It has  
cured people at their homes of many terrible  
and lingering types of disease when patients  
and physicians had lost hope, after having  
tried medicine and other mineral waters of  
great celebrity without avail. The Panacea  
Water is pleasant, harmless and reliable, and  
will cure people

## AS OR AWAY FROM THE SPRINGS

OF THE FOLLOWING NAMED DISEASES:

1. Dyspepsia and various forms of indiges-  
tion.

2. Heartburn and sour stomach—generally  
in a few minutes.

3. Kidney troubles of various variety.

4. Liver troubles of various kinds.

5. Chronic diarrhoea as if magic.

6. Constipation and indigestion of the bow-  
els.

7. Catarrhus diseases, such as scrofula,  
eczema, &c.

8. General debility, impurity of Blood and  
loss of appetite.

9. Cholera infantum.

For nursing mothers, puffy and teething  
children it is of precious value.

For piles and rheumatism, it in many in-  
stances acts like a charm.
